## TACKLE AUTISM

Did you know...

Autism affects 1 in 110 children each year according to the CDC. 1 in 70 of those kids are BOYS. More than 67 children are diagnosed per day, which is a new case every 20 minutes. Each year more children will be diagnosed with Autism than AIDS, diabetes and cancer combined.

Autism costs the nation over \$35 billion per year, a figure expected to significantly increase in the next decade. Autism is the fastest-growing serious disability in the U.S. Autism receives less than 5% of the research funding of many less prevalent childhood diseases. There is NO medical detection or cure for Autism. Boys are four times more likely than girls to have Autism.
