Setup iPhone for iCal feed

- Click the iTunes icon in to launch the iTunes application.

- Connect your iPhone with a USB port on your computer, using the iPhone's included USB cable.

- Click the icon of your iPhone under Devices in the left pane of the iTunes window.

- Select the "Info" tab at the top of the iTunes window.

- Place a check mark in the "Sync iCal Calendars" check box.

- Click "Sync."

- Select the "Eject" button next to the icon of your iPhone in the left side of the iTunes window, then disconnect the device from your computer.
