Case Sealer Series

From manual to fully automatic, Wagner Packaging Machinery offers a case sealer to meet your company needs. Innovative features include:

- Plug-in Operation
- Precise Top and Bottom Sealing
- Easy case-size change over
- Piranha Tape Heads for accurate and consistent sealing
- Adjustable Leg Supports
- Automatic front, back and side folding
- Side safety guarding
- Dual-mast design for stability
- Extended roller table options
- Custom features for your production line

Case Erector Series

Simplify your packaging operations with our compact, versatile, economical, and easy-to-operate Case Erectors. Our complete packaging systems offer cost-effective alternatives to hand forming or cumbersome machines. Performance capabilities include:

- Speeds up to 15 cases per minute
- Small Footprint
- Top, bottom and edge sealers
- "NO TOOLS"** rapid case-size changeover in minutes
- "One Demand"** operation standard for total control
- PLC Controls
- Walk-in, 100 knock-down case magazine

Tape Head Series

The Piranha Tape Head is the best tape head on the market with its simplicity, durability, and afford-ability. Basic features include

- Drop in design
- Robust and simplistic composition
- Exact and precise sealing
- Increase or decrease tape pressure easily
- Ticker blade for consistent cutting
- Positive tape support
- Steel spring inserted tape drum
- Consistent rear seal brush
- Available in 3-inch or stainless steel housings
