

## USASA PLAYER TRYOUT COVERAGE POLICY

USASA offers affiliated members that conduct player tryouts the \$5,000 maximum scheduled benefit plan with a \$400.00 deductible at no cost for that tryout period.

The accident insurance is intended to act as a secondary policy to a participant's primary insurance. If no primary insurance exists then your USASA plan becomes the primary policy.

The requirements are:

1. The coverage is only for USASA affiliated organizations.
2. The claim must be verified by the affiliated league; the state verification officer and cleared through the USASA office.
3. The affiliated member **must** insure that each and every tryout the participant completes the recognized waiver provided on the USASA web page. All waivers upon completion of tryouts are to be transmitted directly to the USASA office.
4. The tryout location must be named for coverage under the USASA liability policy.

Note: Any organization that does not comply with the waiver requirement accepts all liability for that tryout. No other coverage is implied by USASA or its carrier.
