

2017 JOHNNIE LAX CAMP

Ages and Grade Levels (Ages 10-18)

Campers will be divided by age and skill level to ensure proper teachings and matching of peers during individual position training, group/team concepts, special position sessions, and live game situations. Typically, groups consist of 5th-8th graders and 9th-12th graders, possible movement after further individual player analysis by camp staff. There will also be sessions where all campers will be together, as Johnnie Lax LLC believes this is crucial to player development.
