

Individualized Technical Training

This program is designed to improve your individual technical skills, help you achieve your goals and help you take your abilities to a next level of development. Through hour-long training sessions tailored to your specific needs as an individual player, we will create a training plan for you that fits your schedule, track your progress and continuously evaluate your progress and assess your needs.

Finishing Friday

Let's be honest, there are very few moments in our beautiful game that bring as much joy as that moment when the ball leaves our foot and finds the back of the net! Finishing Friday is that 11 o'clock hour to get some finishing work in prior to your weekend games. Goalkeepers are welcome to improve their craft as well! Goalkeepers will see more shots on frame to save in one session than they will in their team's entire season schedule of games.
