

The Mixed Age Division (18/17/16/15/14) is designed for the development of elite teams finishing in the top 15 at National Qualifiers and the Junior National Championship. The mixed division is highly competitive and club directors should really look at their teams to decide if their team is really that competitive. This division does not refer to teams that have different aged players on the team.

Teams will be seeded in early November, and then sent out to participating clubs. If clubs do not like their seed, they can contact the RMR office and move the team to be seeded in the single age division. Mixed teams can choose to move out of Mixed Age into Single Age only after Power 1.
