1. The number of Tier I teams in each Affiliate in each age classification shall be limited by the number of players registered in that Affiliate in that age classification. In each age classification, the Tier I teams shall not exceed fifteen percent (15%) of the total players registered in that age classification in that Affiliate during the preceding from the prior season, provided that, subject to Affiliate approval, each Affiliate shall be permitted to have at least one team per age classification. Each Affiliate's player registration numbers for the preceding season shall be provided on or before September 1 each year. For the purposes of this calculation, each team shall be presumed to have twenty (20) players. For example, the total number of players in that age classification shall be multiplied by 15%, and the product shall then be divided by 20 players, which shall determine the number of Tier I teams permitted in the Affiliate. If an Affiliate has 360 players in an age classification, then 15% of that number would equal 54 players eligible for Tier I. In order to have teams of 20 players, the Affiliate would be limited to 2 Tier I teams at that age.
