

Windom Area Hockey Association Locker Room Capital Campaign Drive

The Windom Arena Needs Your Help!

As many of you have witnessed, the locker rooms at the Windom Arena are more than inadequate. We often times have youth players dressing in the hallways, varsity teams spread out into two locker rooms, and our community room being used as a non-private locker room.

We need to provide a safe place for our players/participants to dress and store their belongings as well as create a welcoming environment for visiting teams and spectators who visit our community.

The Windom Area Hockey Building Committee began meeting roughly 18 months ago to discuss what could be done. The vision of adding a 4,500 square foot addition to the existing arena was born to support our program along with usage by the figure skating club, horse shows, county fair, and all users of the Windom Arena. The project features two locker rooms which will be dedicated to the Boys and Girls High School Varsity Hockey teams with equipment storage, showers, and restrooms available. In addition, three general use locker rooms, a coach's room, and an off ice fitness/training area will also be developed.

We have set a budget of \$500,000 to make this dream a reality! We are proud to report that as this is written we have over \$300,000 raised towards this project! Our project is well underway and we hope to have the building built and utilized yet this season. **We need to raise the last \$200,000 in this Capital Campaign Drive if this dream is to be completed!**
