

# Weather Policy

- **Rain**

Games will be canceled when the fields are not playable. We give our best effort to get games in, and sometimes games will not be called until 3:30 for rain during the day. For rain during games, an on-site board member will make the call to cancel.

- **Lightning**

In the event of lightning, game play will be stopped for 30 minutes. If there is another strike, the clock starts over at 30 minutes. We will continue this for no longer than 1 hour to try and get the games in. The games will be called at this point. They will be considered complete if the required amount of innings is in based on the league or will be suspended and rescheduled.

- **Severe weather watch**

We will watch the weather closely and try to get our games in. If it looks like it may go to a warning, games may be canceled.

- **Severe weather warning**

Games will be canceled. Safety is our top priority. If games are in progress, they will be suspended and rescheduled or called complete depending on the league rules for a complete game.
