## Sign Up Form:

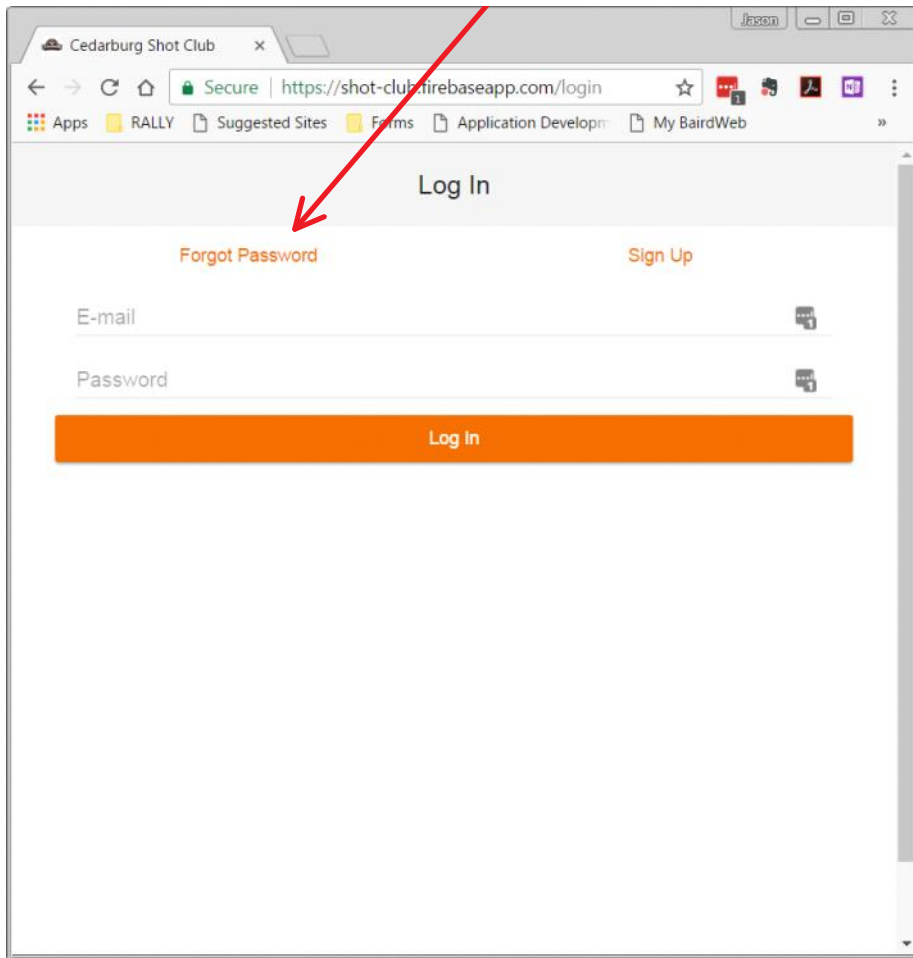

1. Use parent's email to create a FAMILY account.
2. Parents can create separate profiles for all children
3. TIP: The ONLY thing this account is used for is entering made shots.  
A *generic* password for your family might be a good idea so kids can log-in on their own and enter their own made shots.

**Login Screen:**

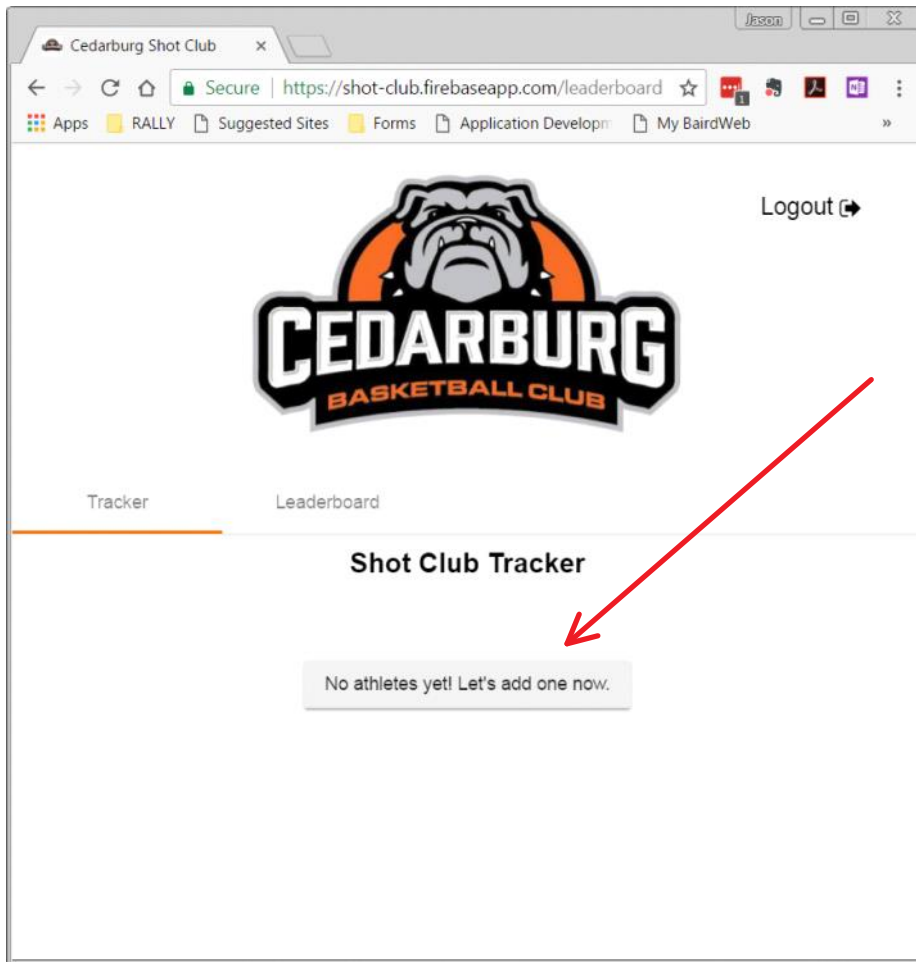

1. Login with username and password you created during sign up
2. If you forgot your password, choose "Forgot Password" and the system will email you instructions

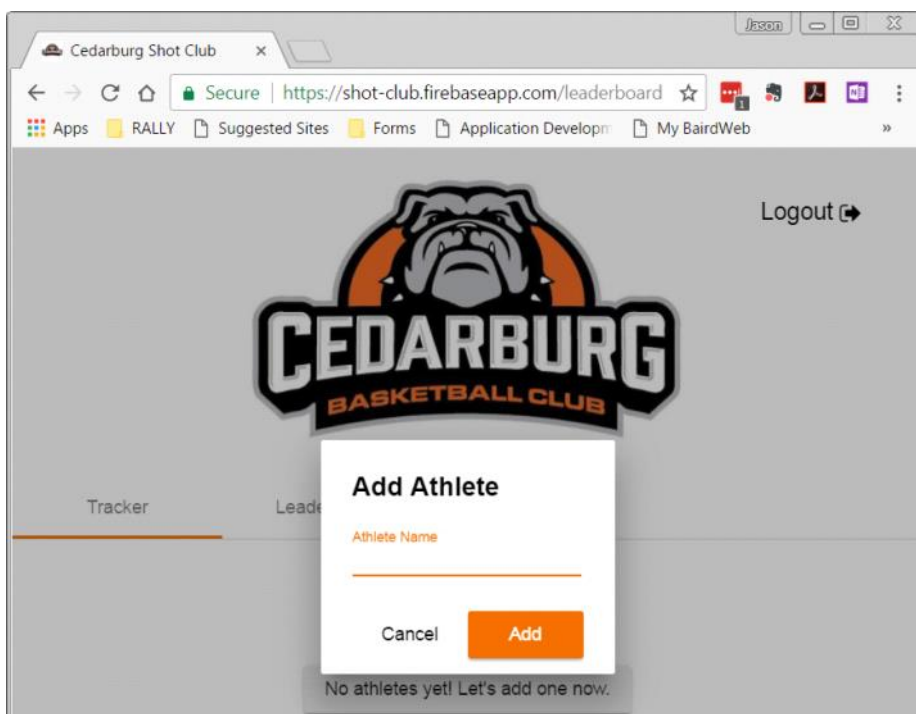

**Home Screen:**

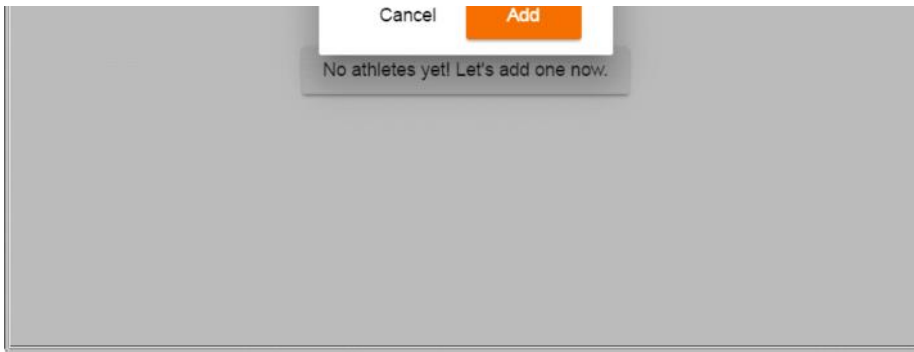

1. The home screen looks like this, and will prompt you to enter an athlete.
2. Click button in the middle to add an athlete.

### **Add Athlete:**

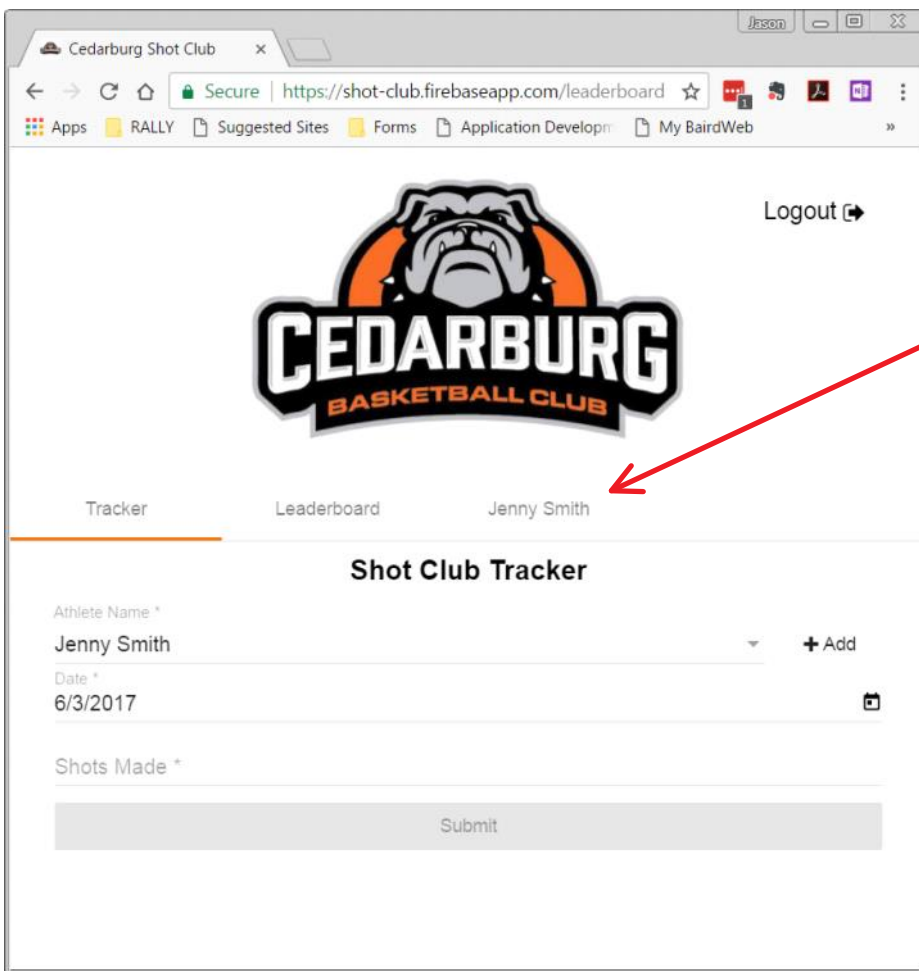

1. An "Add Athlete" box will pop-up
2. Please enter a full name so they will be identifiable on the Leaderboard

**Home Screen (after athlete added):**

1. This is the home screen once an athlete is added
2. Pick the name, pick the date, and enter shots made -- hit submit.
3. That's it!
