How To Access Virtual Cards For Check-in

All U11-U19 teams playing in WDDOA Flights Prime, Challenger and Alpha will be participating in the STYSA SmartCard Program for the 2017-2018 Seasonal Year league play. Players will be checked in at the fields with virtual player ID cards that are accessed via GotSoccer on a smart phone. Note: if a referee requests the official players cards for check-in and does not want to utilize the SmartCard Program for that process, that is within their discretion. Teams must **ALWAYS** have their official laminated (physical) player ID cards available at each game.

Please Remember:

Teams are still **REQUIRED** to bring the official laminated player ID cards to each game for primary and club pass players.

Club Pass Players: Will be accessed through this system as well if they have been placed on the game day roster. If the player does not have a photo loaded into GotSoccer then the physical player ID card **MUST** be shown to the referee crew.
