All reports are included in your folders for this meeting. The goals for this year are to increase support down into the districts with ADM and increasing boys and girls clinics with the local associations. We plan to accomplish this by having Mike Terwilliger work with Wes Bolin and Jess Christopherson to accomplish the scheduling. We would also like to focus on Hockey Director Committee's at the district level and then have each association HDC work with the district HDC. The past ACE coordinator will fill the district position to accomplish this goal. We would also like to increase goalie clinics in the district and create a similar position in each district to work with the district HDC.
