

# Adding Non-League Events to your Team Page Schedule with Smart Phone App (Practices, Scrimmages, Tournament Games)

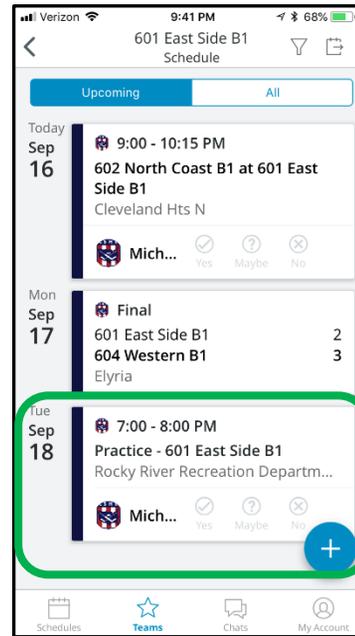

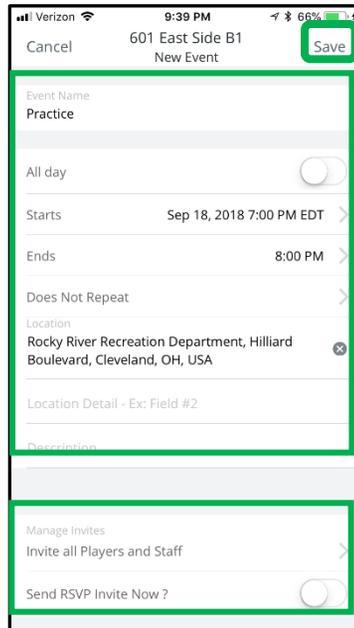

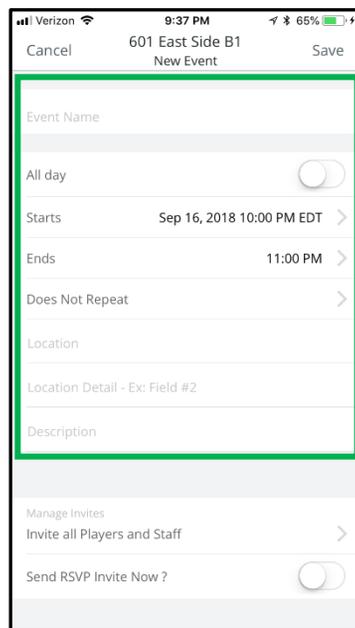

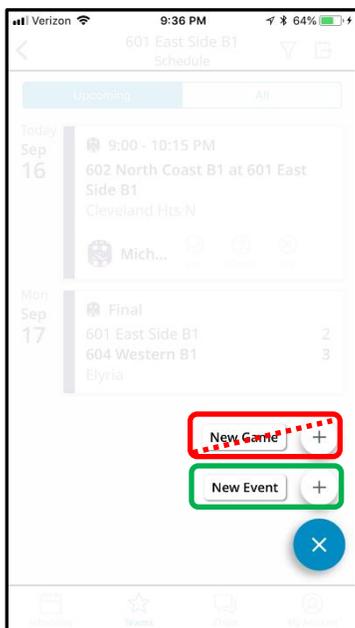

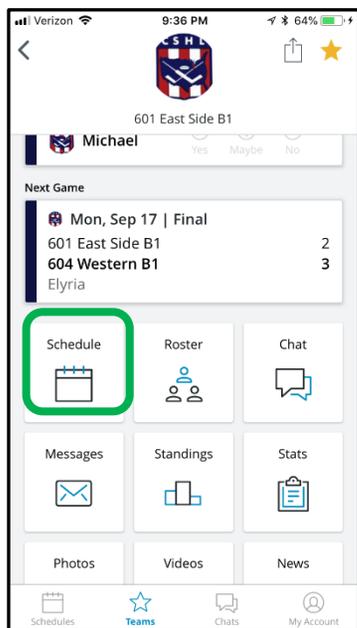

Select Schedule Icon

Select New Event +

Enter Event Data

Decide RVSP and Save

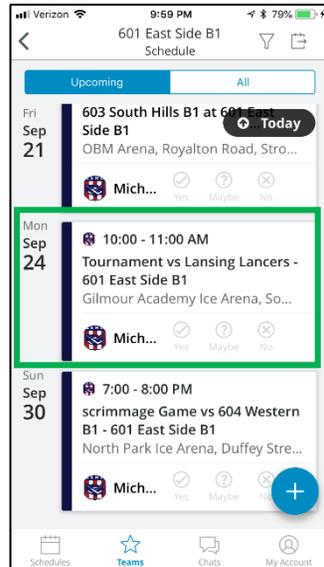

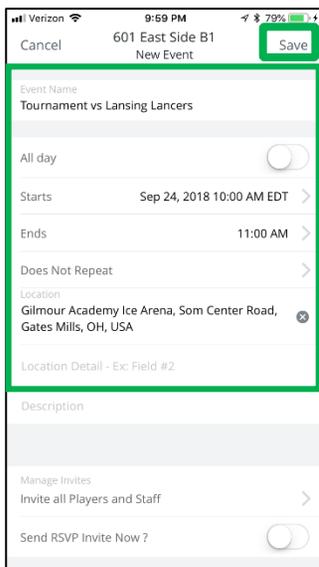

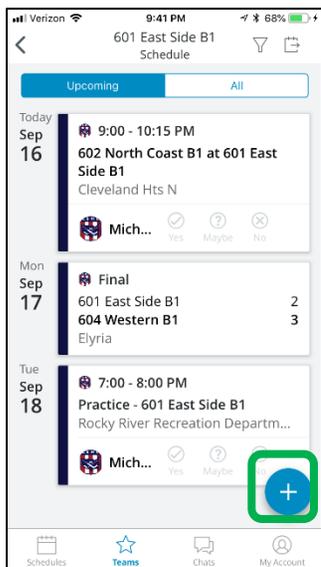

New Event Added to Schedule

Add Non-League Game/Event

Enter Game Event Info/Save

Non-League Games added as Events

**Creating Schedule Events for Your Team**

Team Managers and Coaches with Access to their Team Page can add Team Events to the team's schedule like Practices or Non-League Games you have to use the "New Event" Type to add these events to the schedule.

Parents that download the App can make their players team a favorite and view your teams full schedule.

Parents don't need to become members of the CSHL. They only need to download the SportsEngine App and Favorite your team. You are not allowed to Enter "New Game" Events. Any "New Game" added could affect the league standings. If you want to add a Non-league game contact.
