2019-2020 Youth Hockey Program Details

WPHA Enrichment Program Birth Years 2005-2008

Program Overview:

WPHA Enrichment provides an opportunity for intermediate and advanced players to participate in additional practices and tournament competition throughout the hockey season. Players who are only registered for enrichment, but not a WPHA house team, will participate in practices and tournaments only. Enrichment is open to all WPHA players and USA Hockey registered players in good standing with neighboring associations in the born in 2008 and later.

Practices & Tournaments:

Enrichment practices take place one hour per week from September through February (exceptions occur during holidays and scheduled tournaments). Fall practices are hosted at ice rinks in Colorado Springs. When weather and ice conditions allow, practices will be held at MeadowWood Ice Rink in Woodland Park. Coaches will pre-select tournaments in which the team will compete.

Registration & Fees:

Each player who registers for enrichment will pay a \$175 ice fee and an additional \$75 uniform fee if they are not a current member player of WPHA. Tournament fees are in addition to WPHA player registration fees and are the responsibility of the player. Fees must be submitted prior to each tournament.

Tryouts/Player Evaluations:

Players are evaluated throughout the season, as WPHA believes that players improve with every ice touch. Players will be chosen for additional tournament rosters based on specific skill sets and game readiness.

Season Dates:

September - February (approx. 20 ice touches in addition to tournament games)
