RE: Construction and Impact on Parking and Access

DATE: December 6, 2017

This document was crafted to inform all of a significant event that is a result of ongoing construction at GHS. **As a part of the next phase of construction, the “Staff Parking Lot,” which is also used extensively for after school events/sporting/music/activity events, will no longer be available beginning Monday, December 11.** Construction on the Fieldhouse, Manufacturing and other Academic Programming will begin in these areas.

GHS staff have been informed of our move to a temporary crushed gravel lot on the northeast corner of the property. Here are some things to be aware of for non-staff:

- The front guest parking lot is not impacted by construction at this time.
- Student Lots A, B, C and D (co-op) are not impacted by construction at this time.
- There will be no parking in the soon to be former Staff Parking Lot, other than for Traveling Staff (10 designated spots for those specific individuals).
- After 3:00 PM on each school day, the Traveling Staff spots will transition to Handicap Parking for events.
- On **Tuesday, December 12**, Door 10 (Main Gym Entrance) **will no longer be accessible** as we transition to Door 8 (former Lower Aux. Gym/A to B wing) for after school events such as: concerts, athletic events, meetings, etc.
- An elevator is available to transport any guests in need of assistance in order to get from the level that Door 8 is on to the Main or Upper Auxiliary Gyms.
- Also on **Tuesday, December 12**, they will be pulverizing the Staff Parking Lot asphalt and creating a two-way (east-west) driveway at the south end of what was that lot.
- There will be extensive fencing around these construction zones.

So, a few items to consider as a result of the above:

- Bus and parent drop off and pick up in front of GHS will not be impacted.
- **Drop off and pick-up of students in the back of GHS will not be able to continue at this time.** Please use the front of GHS only.
- Student Lots A, B, C, D (co-op) and bus lanes can be used for fans or those attending after school events.
- The temporary lot will be crushed gravel and will have markers for rows, but could not be paved with asphalt due to the temperatures/asphalt companies closed for the winter. **PLEASE WEAR APPROPRIATE FOOTWEAR**, if you choose to use this lot.

This is something that we have been anticipating for a while and is one of the invasive things that comes with project of this magnitude. Thank you for your understanding and patience as this shift allows for the building of the Fieldhouse, Manufacturing and other things.
