

SHOOTOUT PROCEDURES

- A shootout is defined as a player attempting to score a goal and the opposing goalkeeper attempting to stop the shooter from scoring the goal.
- The referee shall call the two captains to the referee's crease to flip a coin to determine which team takes the first shot. The winner of the coin toss will have the choice whether his/her team will shoot first or second.
- All goalkeepers and all players from both teams listed on the official game sheet shall be eligible to participate in the shootout.
- The goalkeepers will defend the net they were defending in the 3rd period.
- Any penalized player whose penalty had not been completed when the overtime period ended or who receives a penalty during a shootout procedure is not eligible to participate in any portion of the shootout procedure(s) and must remain in the penalty box.
- The shootout procedure shall begin with five different individual shooters from each team taking alternate shots. The players do not need to be named beforehand.
- The goalkeepers from each team may be changed after each shot.
- The players of both teams will take the shots alternately until a decisive goal is scored. The remaining shots will not be taken.
- If after the shootout, the shootout score is still tied, there will be a sudden death shootout.

SUDDEN DEATH SHOOTOUT PROCEDURES

The sudden death shootout will be conducted as follows:

- A sudden death shootout is defined as each team attempting a shot. Should one team be successful and the other team not, the successful team shall win the shootout.
- Teams will select their shooters to participate in any order in the sudden death shootout, whether or not they shot in the previous round. The last player in the first round of the shootout may be the first player in the sudden death shootout.
- Players in a sudden death shootout shall not be allowed to take another shot until four additional shooters have completed their attempts.
- All goalkeepers and all players from both teams listed on the official game sheet shall be eligible to participate in the shootout.
- Any penalized player whose penalty had not been completed when the overtime period ended or who receives a penalty during a shootout procedure is not eligible to participate in any portion of the shootout procedure(s) and must remain in the penalty box.
- The goalkeepers from each team may be changed after each shot.
- The official scorekeeper shall record all shots taken indicating the players, goalkeepers and goals scored.
