

## Club Director Checklist

Check with your region for specific policies and requirements in your area.

- [Prepare for the upcoming season](#)
  - Check your access to your club HQ.
  - Complete all requirements from your Region to be in good standing.
  - Ensure you can see the USA Volleyball tab in your HQ.
  - Assign access to other administrators and complete all administrator requirements
  
- [Club Assignment & Membership](#)
  - After KNOWING which staff and athletes will be participating with your club this season, send club assignment requests.
  
- [Eligibility](#)
  - Check which staff and athletes have accepted club assignment requests and completed their eligibility requirements. You can resend eligibility requirements to individuals as needed.
  
- [Rostering](#)
  - Build rosters under the Governing Seasons tab. Members should display as approved on the roster if they have the correct membership and meet all eligibility requirements
  - Your region may have [additional requirements](#) for staff and players on the roster (examples: officiating/scorekeeping/line judge training). Check credentials to ensure compliance with region policy.
  - Transfer or Build your roster in other event systems (AES, TM2, SportWrench, etc.)

### Preparing For The Upcoming Season

You can access your club's HQ at any time on SportsEngine. However, you can only access the USA Volleyball area of the HQ if you are in good standing with your Region and you've met all administrator requirements.

- If you do not see the USA Volleyball tab in your HQ, you'll need to check with your region to ensure you've completed all necessary steps to remain in good standing.
- If you are a brand-new club, please contact your Region to have a HQ created for your club. This may take a few business days to complete.

## Club Assignments & Memberships

Individuals need a valid USA Volleyball membership and become affiliated with your club in our system. When you send a club assignment request, members will be prompted to purchase their membership (if they don't have one already).

We've made changes to this process based on your feedback last season.  
Check out the new feature called **Public Club Assignment** to make this process easier than ever!

## Eligibility

There are certain requirements an individual must complete before they are eligible to participate. Requirements depend on the membership (examples: waivers, SafeSport, Background Screen, IMPACT).

Once an individual purchases their membership, they will be emailed a list of requirements they need to complete. You can resend them that email at any time or they can access their requirements through their account.

## Additional Requirements

Your region may have additional training that is required for coaches/athletes (examples: referee/scorekeeper/line judge training). These requirements do not affect an individual's eligibility status but may be required for a roster. These types of training are completed in the USAV Academy.

## Rostering

You'll build rosters in the SportsEngine system that are submitted to your Region and USA Volleyball to ensure they meet the requirements set by each organization. An event may use a different system and you will need to rebuild your roster in that system. AES is part of SportsEngine so rosters created in your club HQ can be transferred to AES.

You can build your rosters manually or using a CSV file upload. If your club pays for other SportsEngine tools, you can use the SE Sync method.
