

Hello RTJBL Families

As we plan for our 2026 season the league's executive board needs help filling out the roles of our committee chair positions. The league has been successful because of the volunteers that help organize and run the league each season.

Below you will find a list of open positions that we need to fill to have a season. We simply cannot run a season without your help. We know everyone is very busy with our family, jobs and other volunteering you may already do. If you do not get involved to help run our league for your children then who will?

Please take a look at the positions below and if you have any questions or feel you can help out please email the two emails below with your name, number, position interested in and any questions.

Thank you for your consideration as we look forward to our 70th season.

RTJBL Executive Board

- **Scheduling Chairperson** - *April to the end of July.* We have one person already looking for another to make this more manageable. Monitor scheduler email during the season. Communicate with league coaches and township resources to schedule games and practices on league and township fields. RTJBL website training will be provided to update the league website. Great role for two people to share, find a friend and work together. Work from home or stay at home volunteers makes the position easier to manage or can be done at night if you work during the day.
  - In the month of March also need a volunteer (same as above or separate) to help put together our practice and game schedules.
  
- **League Directors** - *January and during the rec season.* Each rec division has a league director that helps the VP of operations put together manager and assistant coaches and helps run the draft for that division. Google sheet work in January and once the season begins you will be the middle person between managers and VP of operations to help assist with questions and issues that may come up. League directors cannot have a child in the division they are director for. VP of operations will assign directors to a division if they do not have a preference.

- **Chief of Umpires** - *April to the end of July.* Early in the season use an excel template and take our game schedule to send to our umpire scheduler our list of rec games. Once a week check the league website and umpire scheduling software (arbiter) to confirm game schedules match up with the game list on arbiter. **Not** responsible for booking umpires, but you will communicate with the umpire scheduler if there are any additions or cancellations or to resolve any other issues. Each month reconcile umpire invoice with our game schedule.
- **Sponsorship Chairperson Readington and Tewksbury (2 positions)** -*January through April.* We need one more position filled. Work with VP Sponsorship to develop a plan and to help solicit team and sign sponsors. Coordinating new signs for new sponsors and assist in hanging signs before the season around railroad fields. Great off season position for those that are in sales or comfortable socializing with others.
