December 15, 2020

Hello West Yorba Linda Families,

We hope that everyone is healthy and doing well during this unprecedented time. West Yorba Linda Little League would like to give an update on our spring 2021 season. Spring registration is open and we are preparing for a full spring season. With that being said, there are state and local restrictions still in place that limit the extent of what youth sports can proceed with at this time. New information released yesterday, December 14, from the California Department of Public Health, outlined guidance to all organized youth sports and it looked encouraging. We are processing this information, as well as information in the coming weeks from the California Interscholastic Federation (CIF) – Southern Section and how it relates to both high school athletics and youth sports.

It takes a tremendous amount of time and planning in order to prepare for a Little League baseball season. The 2021 season will be exponentially more difficult to plan for given our current state. It is our sincere hope that we are able to have a traditional Little League season, complete with practices and games. In the event that games are not allowed, we are open to whatever format we are able to proceed with and will modify accordingly.

We want you to know that we have extended the \$10 early-bird registration discount through Saturday, January 16, 2021 and have also extended the registration end date to Saturday, January 30, 2021. We have pushed our original timeline back to allow for future guidance in the hopes of having a traditional Little League season. While we have adjusted our dates, we ask that everyone stay flexible with us as we navigate through all this uncertainty. The dates that we have adjusted are currently posted on the league's calendar:

<https://www.wylll.com/page/show/1982453-calendar>, and are subject to change.

Please know that the league will offer 100% refunds in the event that a traditional season is not able to take place. If we begin the season and for some reason need to cancel, the league will offer prorated refunds, just like last year. Uniforms are not ordered until after teams are drafted and we can delay ordering them if needed. If we have to proceed with a different option than one that includes practices and games, it will be offered at a significantly lower cost.

The safety of our players and their families is our priority. The league is working on COVID-19 protocols to have in place when we are able to return to playing and will utilize guidance from the CDC, the California Department of Public Health, as well as the City of Yorba Linda.

We are planning to continue our tradition here at West Yorba Linda in 2021 with all our returning families and looking forward to welcoming new families.

Happy Holidays!
