Adult Hockey Players:

Re: Adult Tournaments at the NSC Super Rink

Good morning,

As many other businesses have changed due to the pandemic, the National Sports Center has been in the process of evaluating our business as well. Believe it or not, collectively we administer 87 events during an average year. We have been in the process of evaluating our events and programs. This evaluation uses several factors to determine whether we should continue running an event. We are taking into consideration things such as: mission, profitability, community fit, resources to execute an event, as well opportunities for rental replacement events.

At this time the National Sports Center has made the decision to discontinue our adult hockey tournaments – Walleye Chop, Red Solo Cup, Stick it to Cancer and Luck o’ the Puck (previously True American). We will continue to offer our MN Wild Adult League for our adult hockey players. I want to thank you for the time and memories made at the Super Rink in all our previous adult tournament offerings. From tailgating at the Walleye Chop, to raising money at Stick it to Cancer, we hope that your past experiences were wonderful and brought you closer to your hockey community.

Any team that is currently registered for any of the adult tournaments will receive a full refund. If you are currently in possession of a “credit” voucher from a previously cancelled event, due to COVID, you will also receive a refund. This does not include the \$100 DISCOUNT vouchers – These are nonrefundable with no cash value. One of our registration team members will be in touch and begin that process with you to issue payments back to the original card if possible or work on alternative options for returning those funds to you by no later than March 1, 2022.

I want to thank you for the time and memories we shared and wish you the best in your future hockey endeavors.

Thank you,

**Spencer Arvold** | National Sports Center
