Coaching Philosophy:

I believe in building a strong foundation for our kids and new generations to come. To encourage our kids to play this beautiful sport-(FUTBOL), and the best way to do that is by teaching all our kids principals not just for this sport but for life: respect, commitment, discipline and how to achieve. In life those things are very important to apply on a daily basis.

FUTBOL is a good tool for us to develop important life skills in our kids. Saying this, it reminds me what my Dad told me: stay active, stay involved, stay motivated, use FUTBOL as a medicine when you have a bad day. Go out and play and you'll see the results- more or less I still do that today. FUTBOL has change my life, my achievements, and everything I am is thanks to FUTBOL.

Coaching Staff

Greatest soccer memory: Mine is to see over the years kids that I coach in the past to be successful and now coaching their own kids.
