

Community Foundation of JH Extracurricular Opportunity Scholarship Parameters 2019

The CFJH Extracurricular Opportunity Scholarship is designed to support students of low- and middle-income families with the opportunity to engage in sports, arts and cultural programs.

One scholarship per student per season will be awarded.

Students must be enrolled in a school in Teton County, WY (public or private) and be in grades K-8. Students in grades 9-12 should apply directly to programs for scholarships.

Parents must complete an application and provide income verification annually. Applications are received year-round; however, income verification is only required once every 12 months, unless there has been a change in circumstances.

Families are awarded scholarships based on income and family size. Exceptions are made for families with extenuating circumstances. Scholarship award committee meetings are held on an ad hoc basis in order to make decisions about these cases. Sliding scale parameters are based on the current Median Family Income (MFI) for Teton County and are adjusted annually. Please refer to the sliding scale in page 2 of this document (Table A).

Students in grades 6 to 8 must demonstrate good academic standing to be eligible for Extracurricular Opportunity Scholarships.

In the majority of cases, scholarship awarded will be matched by the program, leaving families responsible for the remainder, in order to complete the total cost of the extracurricular program.

Program fees are paid directly to the extracurricular program. Payment of the fees is completed upon receipt of the signed, CFJH Extracurricular Opportunity Scholarship Program Memorandum of Understanding (MOU).

One22 does not guarantee space in any program. Program enrollment takes place after the program application and income verification have been reviewed and corresponding MOU has been signed.

Most programs will require payment in full prior to participation. Some programs will facilitate payment plans. One22 can assist families with establishing payment plans, if necessary.

Parent(s) may apply for a partial reimbursement for travel expenses and/or equipment; however, these expenses should be considered in registering for a program, as reimbursement is not guaranteed. An option may exist with some programs to borrow rental gear, free of charge. Parent(s) that are awarded a partial reimbursement will need to submit all receipts prior to a check being issued. Expense reimbursements are only up to \$300 per child per season and cannot include reimbursement on alcoholic beverages. For more questions regarding the reimbursement process, please reach out to One22.

All applications for scholarships are confidential. The applications are coded with an assigned number to ensure anonymity if discussed in an award committee meeting. Participant names are only shared with the program registrar.

This program is fully funded by private donations.

A thank you note from the student(s) and/or parent(s) after the completion of a season would be greatly appreciated.
