

# HOCKEY WITHOUT LIMITS

## DINOMIGHTS ATTEND THE 6TH ANNUAL HOCKEY WITHOUT LIMITS CAMP HOSTED BY THE MINNEOSTA WILD

February 16, 2026, was an important day for DinoMights. Our attendance at the Hockey Without Limits camp marked the first real glimpse of normalcy in our programming this year. Much of our work has been paused or canceled due to the heavy ICE presence impacting the communities we serve, leaving many of our kids stuck inside and unable to play hockey.

Seeing kids return to the game they love, free from the weight of everything happening around them, was deeply meaningful. Smiles and laughter filled the session, and most importantly, kids who are often overlooked in hockey were given the chance to simply be kids again.

Held during Black History Month, the camp carried added meaning. The month honors the achievements and resilience of Black communities, and this event reflected that spirit by creating a more welcoming and inclusive space within the game of hockey.

Hockey Without Limits was created to expand diversity and access in the sport, goals that closely align with DinoMights' mission. As James Toussaint shared, "It resonates well because DinoMights is built on the diversity of the players and families we serve. We provide skating lessons, hockey teams, and ice time for kids and community members who might not otherwise have the opportunity to participate."
