NOVEMBER 2018 PRODUCT INFORMATION

FOR NUTRITIONAL INFORMATION OR COLOR PHOTOS OF OUR PRODUCTS GO TO OUR WEBSITE @ www.pieshoppe.com. IF YOU STILL HAVE QUESTIONS, PLEASE GIVE US A CALL.

ABOUT OUR PIES ...

- ❖ Our pies are 9 inches in diameter and come individually packaged in their own corrugated box. They can be divided into 6 – 8 slices!
- ❖ Our pies are made with the finest ingredients and baked right before they are delivered to you. Our pies DO NOT arrive unbaked or frozen. *It is important that your organization deliver the products the same day they arrive from us.*
- ❖ Pumpkin pies must be refrigerated. Cream pies should be refrigerated. Freezing these pies can affect their appearance and make their crusts soft. Pumpkin pies and cream pies should last 4-5 days if refrigerated.
- ❖ Our fruit pies have a shelf life without refrigeration. Refrigerating our fruit pies will make them last about 5 days. Fruit pies can be frozen. We recommend placing the pie in a freezer bag and placing it back in its original box for best freezing results. Fruit pies may be frozen approximately 1 to 2 months. Pies frozen longer than 2 months aren't harmful – they just aren't at their peak flavor and texture.
- ❖ To thaw a fruit pie, immediately place it in a 350°F oven for 25-30 minutes and then serve.

ABOUT OUR PUMPKIN ROLLS ...

- ❖ Each pumpkin roll is about 6 ½ inches long, providing about 8 to 10 servings and comes individually packaged in its own corrugated box.
- ❖ Our pumpkin rolls have a cream cheese filling and must be refrigerated. They should last 4-5 days.
- ❖ Our pumpkin rolls can be frozen. For best results, keep them in saran and place them back in their original box. They may be frozen for approximately 1 to 2 months. Pumpkin rolls frozen longer than 2 months aren't harmful – they just aren't at their peak flavor and texture.
