

COVID statement

In these uncertain times, we believe more than ever that kids need to be out staying active. Organized sports provide many benefits that otherwise would go unseen.

Some of the benefits of kids playing sports include:

- Better Coordination and Balance. ...
- Increased Strength and Stamina. ...
- Positive Changes in Body Composition. ...
- Positive Effects on Lung and Heart Function. ...
- Positive Body Image and Healthy Self-Esteem. ...
- Stress Reduction and Positive Effects on Mood. ...
- Sportsmanship.
- Creative and strategic thinking
- Friendship
- Leadership

Whatever happens, we intend to have soccer for our kids! We will continue training and plan for fall accordingly. There are many options for game play outside of the leagues (should they be postponed or changed): intra-club scrimmage, tournaments and inter-club games. Games are never guaranteed. Our club's mission is to facilitate the individual development of soccer players, through training in the fundamental skills that are the foundation of the game. It is important to continue training on a regular basis to further develop these skills. We will follow the state guidelines and only consider partial refunds if we are prevented from holding intra-club activities. We do need to be aware of player/parent/coach safety.

While following our local health guidelines, we will continue to play soccer!!!

Parent/Player guidelines

- If player is not feeling well (you know the symptoms by now), please STAY HOME!
- Players should bring their own equipment and drinks, and avoid sharing personal items.
- Players/parents should wear a face covering/mask when social distancing of 6 feet cannot be maintained.
- Players/parents are encouraged to wash/sanitize hands before and after sessions.
- Players are allowed to practice without a face covering/mask.
- We suggest parents remain in their cars during practice. If not possible, only one parent per player should attend and they should abide by social distancing and face covering guidelines.
- Any player/parent having a confirmed diagnosis of COVID-19 or a primary exposure (within 6 feet of person with confirmed diagnosis for more than 15 min. without a face mask) should report this immediately to their coach and STAY HOME.
