

CANLAN HEALTH and SAFETY PROCEDURES

Please review all public health standards distributed by your team manager.

Before departing for practice, be sure you are able to answer 'NO' to all seven self-health check questions. When in doubt, stay home!

Here are the specifics for practices at Canlan.

COVID inspired Arrival and Departure Rules for families at Canlan:

- All participants must check in at the front tent. Please allow enough time for your child to check in and get to practice on time. A health questionnaire will need to be filled out in advance by the parent the day of their arrival. The questionnaire will ask you what time you are participating, this helps us sort by actual times and speeds up the check in process so be sure to select the time your child has their practice. <http://www.canlansports.com/questions/>
- Once checked in, participants will be lined up based on what field they are on. Please make sure they know where they are supposed to be going (Field 1, 2 or 3). A Zone Control attendant will escort the participants to their field and explain which door they will use to exit.
- Each participant will use hand sanitizer and have their temp taken before they are transported to their location of practice.
- **All participants must wear a mask.** They will not gain access to the building without a mask.
- **There are NO spectators allowed in the building at this time,** only participants and coaches in order to reduce the risk.
- Concessions and vending machines are currently closed along with all of our water fountains so please be sure your participant is prepared with plenty of water and anything else they may need.
- At the end of practice we ask that you move your participants off the field/courts as quickly as possible so that we can keep groups separate as we transition people on and off each surface.
- As a reminder there is going to be a lot of traffic during peak times and we want to remind you not to drop off in the fire lane. This is a heavily trafficked area with participants walking across from the parking lot to the facility and we want to keep everyone as safe as possible. Park your car and let your child out or escort them to the facility to help check them in if necessary.
- **If your child or anyone in your family is exhibiting any symptoms, please stay home. If anyone in your family tests positive for Covid, please notify us right away along with your coach.**

This will work if all teams follow the procedures. Please encourage promptness and patience so we can all enjoy a productive winter
