## Other Areas of Need:

Shawano Hockey League also has some urgent needs. We have a very old Zamboni that will need replacement soon. We also have Dasher Boards (rink boards) that are going to need replacement in the next few years. Both are getting to the point where parts are not available and needed repairs are becoming more and more common. These are both expensive items that are very much essential to the program. When the program was started many years ago we were lucky enough to have both items donated by local area companies. Although we have been actively fundraising and putting money away for these items. We may run out of time before the items need replacement. If you are interested and helping us out. Please let us know and we can give you more details.

**Thank You! For your support of Shawano Youth Hockey**
