NCAA SCOUTING SERVICE EVALUATIONS – SEPTEMBER 2019:

PREP GIRLS HOOPS CALIFORNIA - Strickly Gurlz Media Clinic Top 2020s

"Ewell is very talented in the post. She uses her size well to establish good position in the post. Once she gets good post position, she has a couple different moves she uses to finish around defenders. She seals off her defender well when making a move. She has a couple spin moves and a nice drop step to score at the rim. Good hands in the post both offensively and defensively. Runs the floor well."

BIG CITY HOOPS

"One of the players that caught my eye was 6'3" Center Jocelyn Ewell out of Santa Margarita High School in Rancho Santa Margarita, CA. Ewell competed hard all afternoon and was able to showcase her abilities against good competition. Ewell runs the floor extremely well for her size, possesses good footwork in and around the basket and rebounds at a high clip. Ewell was a problem for opposing offensive players as she effectively defended the paint and had several blocks in the process. Ewell has been flying under the radar in the Los Angeles area, but now has a chance to have a breakout year this high school season. This was our first opportunity to see Ewell so not quite sure at what level she will compete at beyond high school, but one thing is for certain she has a future beyond high school and her future is bright."
