

FATTFRO HEALTH and SAFETY PROCEDURES

Please review all public health standards distributed by your team manager.

Before departing for practice, be sure you are able to answer 'NO' to all seven self-health check questions. When in doubt, stay home!

Here are the specifics for procedures at FattFro.

Here is how the arrival process will work at FattFro:

*Managers should arrive at FattFro 10 minutes prior to the start of their practice, and wait outside the locked front door.

*Players should be instructed to arrive at FattFro 5 minutes prior to the start of their practice. If families arrive 15 minutes early, they should wait in their car until they see their coach at the front door. Families should not leave the parking lot until they see that their team has entered the facility.

*Once the teams enter the facility, the doors will be locked until the team departs.

*A FattFro representative will be present to open the door and take each participants temperature. A player with a high temperature is unable to participate and will return to the family vehicle.

*Teams should end their practice at least 5 minutes prior to their practice window. For example, if a team practices from 10am to 1130am, they should end practice by 1125am so they are all packed up and leaving the facility promptly at 1130am. Remember, the facility must be completely emptied before we can welcome the new teams and we cannot create further chaos in the parking lot with four teams present at the same time.

This will work if all teams follow the procedures. Please encourage promptness and patience so we can all enjoy a productive winter.
