

Pee Wee League Rules for Wasco Baseball

Summary of League

The Pee Wee league is for players in **Kindergarten**. The Pee Wee league is a **50% Tee, 50% Coach-Pitch** league. Formal scorekeeping of league games and league standings will not be kept.

Player Registration

Players in kindergarten (Spring Season) or who will be going into kindergarten (Fall Season), will be assigned to the Pee Wee league.

Game Rules

Game/Inning/Time Limit: A complete game shall consist of four (4) innings OR a 60-minute time limit, whichever comes first.

Base Coaches: Adults will coach 1st base and 3rd base, with one adult in the dugout. Two adults may be allowed to coach in the outfield area while the team is on defense. These Coaches must be registered, rostered and approved by the Wasco Baseball Board of Directors.

Uniforms: Uniforms are conventional, with long-legged pants (no shorts) and player-provided sneakers or compositional baseball shoes (no steel spiked shoes permitted). The league provides a jersey, baseball pants, and a baseball hat to each player. Each player is responsible for wearing their entire uniforms on game-day (with all shirts "tucked in"). It is expected that hats will be worn to both practices and the games. No jewelry is permitted at games or practices. Players need to make every effort to wear their uniform, so it is visible. Managers/Parents have the discretion to deviate from this in cases of inclement weather and/or the health of a child.

Rainouts / Suspended Games / Make-Up Games / Rescheduled Games: The Home team manager is responsible for checking the fields to determine if a game should start due to rain or threatening weather. If the Home team manager determines that the field or conditions are unplayable, they should contact the Visiting Manager as soon as possible. Managers are encouraged to make an effort to reschedule the game if possible.

Heat / Cold / Lightning Polices: Please refer to the Policies section of the Wasco Baseball website:
<https://www.wascobaseball.com/policies>

Field Dimensions

Distance between bases: The distance from the back of home plate (the point) to the outfield side of the middle of the bases at 1st and 3rd is 40 feet. The distance from the back of home plate (the point) to the center of 2nd base is 56 feet and 6.84 inches.

Offense

Lineup: All players will always be in the lineup and will bat in consecutive order.

Inning Limit: The inning is considered over when all batters in the lineup have completed one at bat.

Batting Order: Continuous batting order shall be used.

“Outs”: No pitching outs will be recognized. Three outs will not retire a side. Batter-runners and baserunners will be removed from the field when an out is recorded.

Bat Information: Tee Ball bats are strongly encouraged. Tee Ball bats are 26” or less in length, have the USA Baseball stamp and the barrel reads “Only for use with approved Tee Balls.”

Bats that are acceptable are:

- 2-1/4" diameter barrel with either a USSSA or USA Baseball stamp.
- 2-5/8" diameter with the USA Baseball stamp.
- Solid one-piece barrel Wood bat (does not require USA Baseball stamp).

Thrown Bat Rule: The manager or coach at home plate shall warn batters who throw their bat. If after having been warned once, the same player throws their bat a second time, the player shall be declared out and the ball ruled dead.

Helmets: Batting helmets shall be worn in all practice and game situations whenever a player is preparing to bat or is batting.

Base Running

Leadoffs/Stealing: There are no leadoffs or stealing. Runners must stay in contact with the base until the ball is hit. When the ball is hit, the runner/runners may run until at the next base.

Sliding: Sliding into any base, except 1st, is permitted. The runner must slide at home plate if there is a play.

Overthrows: Runners may not advance on overthrows.

Running out of the Baseline: Runners must stay in the base line. They may not run all over the field to avoid being tagged out. While running to 1st base, a runner can run to the right or left of the line, as long as there is no deliberate move toward 2nd base. Children should be taught, however, to over-run 1st base toward the right side of the base or straight-ahead.

Runs Scored: Runs and score are not kept at the Pee Wee level. On a ball in play, the base coaches should not attempt to “stretch an extra base” out of the play. This rule is for the safety of the players and to avoid the disorganization and frustrations that are caused by multiple errors on one play.

Defense

All players present for a game must play.

Number of Fielders: There will be 9 players on the field at one time and it is recommended that each player be allowed to play all positions during the season.

Inning Minimums: No fielder is permitted to play the same defensive position for more than two innings.

Positions: The field positions are: Pitcher (must wear a batting helmet) 1B-2B-SS-3B, LF-LC-RC-RF

Outfielders: Outfielders must play in the grass. Further, managers should not allow the right fielder to attempt to throw out a runner at first base on a ground ball to the outfield – the proper throw to instruct is to second base for the right fielder.

Infield Fly: There is no infield fly rule.

Chase Rule: A fielder may not run all over the field to tag a runner. The defensive player should defend only the base at their position. For example, a first baseman may not run across the infield to tag a runner along the base line between 2nd and 3rd base.

Pitching

The pitching rubber shall be located 38 feet from home plate. The first half of the season is 100% off the tee. The second half of the season will be Coach-Pitch.

Tee Rules: The tee must be used for every inning during the first half of the season.

Coach-Pitch Rules: In the second half of the season, a Manager or coach will pitch from the pitching rubber overhand, from a kneeling position or sitting on a bucket. When the Manager or Coach is pitching, the defensive player in the pitcher's position will stand next to the adult pitcher. It is the adult pitcher's responsibility to make sure the defensive pitcher's view is not obstructed. Batters should be encouraged to swing at all reasonable pitches, as there are NO Balls and strikes called. Strikeouts and walks will NOT be allowed during the coach-pitch innings. The batter will NOT take first base when hit by a pitch. **Pitches shall be limited to a maximum of 4 total pitches per batter, with one exception.** If a foul is hit on the 4th pitch, the batter will receive another pitch. If the batter misses the 4th or 5th pitch, then the ball is placed on the Tee.

Conduct

UNDER NO CIRCUMSTANCES DO WE WANT ANY ARGUING ON THE FIELD. ACTIONS LIKE THIS IN FRONT OF THE CHILDREN WILL NOT BE TOLERATED. Managers are 100% responsible for the conduct of their coaches, parents and players. Parents are to be informed of the rules before the season begins. All managers, coaches, players, umpires, parents, and board members are subject to the Wasco Baseball Codes of Conduct. The League Commissioner must be notified as soon as possible with a report to the League President as to what occurred if a problem arises.

Rosters

Only players that are registered shall be considered "rostered players" and be allowed to participate in practices, games or other league sponsored events. A "registration" shall be considered completed when the player has their registration fully completed through SportsEngine (the Wasco Baseball website), which includes the applicable fees paid, the medical waiver form and code of conduct form completed. Use of a non-rostered player shall be strictly prohibited and will result in disciplinary action against the team manager.

Dugout Selection & Rules

Unless otherwise agreed to by the Managers, the home team shall occupy the 3rd base dugout/bench and the visitor team shall occupy the 1st base dugout/bench. The only persons allowed in the dugout during a game are the players, the manager and coaches. Managers and coaches shall remain in the dugout during game play unless specifically allowed by league rule or functioning as a base coach or an outfield coach.

Field Preparation and Care

The **home team** is responsible for ensuring the field is set up properly for the game, including chalking the foul lines and the batter's box. The home team will supply the game balls and shall be required to surrender the field to the visiting team fifteen minutes before game time.

At the end of the game, the **away team** is responsible for clean-up. Bases should be left "in" (there is no need to take the bases out and replace them with plugs). Please put away all rakes and ensure all field equipment (marking string, dig out tool, and chalker) are in the field box **with the lid closed tightly**. The away team is responsible for smoothing and filling any holes created during play especially around the bases, home plate, and the pitcher's mound.

The field shall be cleared of all players five minutes prior to the start of the game. The Managers shall concur in the event a previous game makes the field setup impossible to be completed prior to the scheduled start of the game. Teams should remove all equipment from their dugouts immediately following their game, and prior to post-game meetings, to allow the next games teams to enter the dugouts timely. **Each team is responsible for the removal of all trash from their respective dugouts, spectator areas, and the field.** All field issues should be reported to fields@wascobaseball.com.
