

Policy for Volunteer Requirements: Background Check and SafeSport

The safety and well-being of AAHA players is the top priority. To maintain a secure and positive environment, the following policy outlines the requirements for volunteers based on their roles within the organization.

The following roles involve close contact with players and **require both** a completed background check and SafeSport certification:

- **Coaches**
- **Locker Room Monitors**
- **Team Managers**
- **Any volunteers supervising or directly interacting with players**

The following roles are not directly responsible for player supervision and do not require a background check or SafeSport Certification:

- Concessions workers
- Scorebook keepers
- Clock operators
- Penalty box attendants

Instructions for completing a background check and SafeSport training are on the AAHA website under the SafeSport tab.
