ICE SHOW DAY

We will not be having volunteer requirements as we have had in previous years. However we will need help to remove glass after Friday's dress rehearsal as well as some limited set up on Saturday morning and take down after the taping. If you are available for any of these please reach out to Kami Weis.

Due to current guidelines that limit rink occupancy to 25% capacity, each skater is allowed 2 spectators that are expected to wear masks. We will be doing spectator tracing so you will need to check in and provide names and phone number of people attending. If a skater has a blended/double family they are allowed 2 from each family. Seniors are allowed additional spectators. We will not be selling tickets but will take a donation at the entrance to hopefully cover some of the lost revenue from not having the traditional show.

Skaters are expected to arrive fully dressed for their performance. All skaters and family members are expected to leave immediately following the video taping of their performance. We are **not allowing pictures** on the ice as we need to clean and usher the next group in for taping. Flowers were only available by pre order. If you ordered in advance, you can pick up your flowers as your skater puts their skates on.

Groups will enter the ice from a curtain on the ice as in previous years. The decorations will be minimal. Groups will skate their routine one time. If a group has a fall or a serious memory issue, it will be immediately rerecorded and the better of the 2 recordings will be used on the DVD. There will also be an option to purchase a live video stream of the performance for family members that are not able to attend the performance. [Web address to be provided as soon as available.](#)

Immediately following the performance. Skaters will exit the ice on the opposite end of the rink. Families are to meet their skaters at the exit end and leave the building so we can clean following USFSA and hockey association guidelines. There are other skaters scheduled to skate right after your group and we must keep things moving.

The "show" order was designed to limit the amount of time people were in the rink and potential exposure for contact tracing. The DVD version of the show will follow a more balanced version of groups and features.
