The Mid-Hudson Tiger's Baseball program is a volunteer run organization that is now comprised of 6 Teams and serves over 80 local athletes between the ages of nine and eighteen. We operate as a 501(c) 3 as a Member of the Amateur Athlete Union of the U.S. Inc. The Group Exemption Number of the Amateur Athletic Union is 1155.

The Tiger's program offers selected young athletes the opportunity to compete on a bigger stage and at a higher level, but is also designed to do more than teach baseball. Both on and off the field, we stress the importance of respect, commitment, and sportsmanship. On the field, we want our players to respect their opponents, coaches, and umpires. Off the field, we want them to respect themselves, their parents, teachers, families, and community.

Players who are part of this organization understand the time commitment. They are forced to balance academics with athletics. The discipline and time management skills learned through this experience will prepare these student athletes for the demands of life that lie ahead.

One of the major challenges our young athletes face, is funding. Many players in the program simply cannot afford to pay the individual player fees and we have always attempted to alleviate some of these concerns, at least in part, by soliciting donations from individuals and businesses in the community. All of our field time is donated but the cost of uniforms, tournament entry fees and travel expenses mount quickly.

Please feel free to give us a call with any questions.
