COVID-19 Affirmation and Additional Risk Disclosure

In consideration for being permitted to participate or observe this activity or course, I for myself and my child(ren) agree to and acknowledge the following:

- I understand that participation in this activity or course, during the COVID-19 Pandemic increases the risk of exposure to COVID-19, and/or any mutation or variation thereof. I am also aware that such exposure can occur directly or

indirectly to me, my child(ren), or anyone in my immediate household (including the actual participant(s) in the activity or course). I understand that the risk of exposure cannot be eliminated. Exposure during participation may result in mandated quarantining; short or long-term hospitalization; permanent injury; inflammation of the heart (myocarditis); physical injury; death; or a combination of these things. I understand that exposure may impair the participant's future ability to earn a living, to engage in business, social and recreational activities, and to generally enjoy life. I further understand that some individuals are more susceptible to the risks of exposure to COVID-19, including people who are overweight, over the age of 65, people with serious underlying conditions such as high blood pressure, chronic lung disease, diabetes, obesity, asthma, and those whose immune systems are compromised. I understand that if I or my participating child(ren) fall within one of these categories, the Alaska School Athletic Association (ASAA) and the District recommend that I provide my healthcare provider with the MSBSD COVID-19 Return to Play Protocol (INST 48) form for a medical release prior to participation in athletic activities.

- I understand that COVID-19 is a novel virus that affects the respiratory system and may also **AFFECT THE HEART** in some individuals and may result in long term consequences, including; **MYOCARDITIS**, which is **INFLAMMATION OF THE HEART MUSCLE**. This inflammation may remain undetected for months after having the COVID-19 illness, and is one of the leading causes of **SUDDEN CARDIAC ARREST** in athletes in the United States. It is recommended that an individual(s) who currently or previously has had COVID-19 consult with their primary care provider/or pediatric cardiologist to obtain a COVID-19 Return to Play Protocol release (INST48) before participating in physical activity. A gradual return to physical activity is recommended for individuals who have had COVID-19 in order to identify any concerning signs or symptoms.
