

Hello Bulldog Hockey Family,

I want to take a moment to update you with the latest news regarding the Le Sueur Community Center.

On July 8th, the Bulldog Youth Hockey Board met with the recreation manager for the City of Le Sueur. During this meeting we were given some very exciting news. The City of Le Sueur will be opening the ice arena this Fall! Yes, you read that right. Our players will be back on the ice this Fall!

We, the Board and HOC, will continue to work with the Community Center regarding the upcoming season, as we know it will look and feel different. Together we will work through the current return to play guidelines that we have received from Minnesota Hockey and develop COVID-19 safety protocols for coaches, players and spectators. Once it gets closer to our season starting, we will send out the protocols to everyone and also post them on our website. If there are any changes or updates to these guidelines along the way, we will make the necessary changes and relay these to our families.

I know the last update had a lot of unknowns about our season but I want to thank everyone for your patience as we worked with the City of Le Sueur to make this upcoming season happen.

Sincerely,

Jill Stensrud
Minnesota River Youth Hockey
President
