

Dear Community Youth Supporter:

The PTHC is a not-for-profit corporation under Section 501(c)(4) of the Internal Revenue Code and derives all funding and support from its members, contributors and sponsors. Our hockey program consists of over 200 players from Pre-School through High School participating at various levels of athletic development.

The goals and philosophies at the core of our program are intended to:

- build character in our youth while teaching and promoting ice hockey
- encourage all people who participate within the club to follow and uphold the ideals of good sportsmanship, honesty, fair play and self-improvement
- provide an opportunity for players at the developmental levels to learn the basic skills of ice hockey without an over emphasis on winning
- provide an environment that encourages players to move on to the next level in ice hockey after they graduate from our program

It's through the generous corporate sponsor donations that we are able to continue to help keep the costs of hockey affordable for our many families.

Thank you for your generous consideration of support for our community youth.
