

CHESTERFIELD HOCKEY ASSOCIATION

COVID-19 Update # 2: A message from the Chesterfield Hockey Board of Directors

March 15th, 2020

Hello Families

Over the past couple hours, area school districts have announced they are pausing the school year until April 3rd; and keeping kids at home. A re-evaluation of this decision will take place by local officials at that point in time.

The Chesterfield Hockey Association will be following this lead, and postponing the start of our **Spring Learn to Play** and **Spring Development** program until the **week of April 6th**. We too will then re-evaluate with the latest information at that point in time.

The **Maryville University Hockey Center** and the **Pacific Ice Rink** remain open for public and private use; with certain use restrictions as deemed by officials. Rink programs will continue as planned (unless otherwise indicated), with potential modified scheduling as necessary.

As we iterated in our previous letter, The Chesterfield Hockey Association places the safety of our members and guests at our facilities as a top priority. We take great pride in keeping our facilities as clean as possible. Due to the COVID-19 virus, we have implemented additional daily & rigorous cleaning practices in both of our facilities using cleaning agents as recommended by the Center for Disease Control (CDC) and listed on [CDC.gov](https://www.cdc.gov).

We will continuously monitor the situation and keep you updated on the latest news. You can find the status of our operations on the following websites:
