Woodbridge uses the highest quality of paraffin wax, pours all of the candles by hand and sets the lead-free wicks by hand. Our goal is to produce a candle that: looks good, smells good, and burns clean.

For clean burning, keep wick trimmed to ¼ "at all times. Burn time for a jar candle is 110-150 hours.

Woodbridge reed diffusers will last for at least three months. They are non-alcohol based, non-flammable and skin safe. The Woodbridge Reeds are true "reed" (not bamboo imitations). Turn the reeds once a week for a maximum scent throw.

Woodbridge wax melts are made with a softer wax that allows for the best scent throw. We are using the same great scents that are used in our candles. Wax melts are packaged in groups of five. There are no substitutions in the groupings but you may choose to purchase five clam shells of ONE scent.
