

**STATE COLLEGE ICERS
2020-2021 SEASON CANCELLATION REFUND POLICY**

While we all look forward to a full 2021 youth hockey season, the SCYIHA Board of Directors recognize the possibility for cancellation of all or a portion of the season due to the COVID-19 pandemic. As such, the following Season Cancellation Refund Policy will be in effect. The amount refunded will be based on the portion of the season that is cancelled. Any portion that is rescheduled rather than cancelled will not be considered for this policy.

If the entire season is cancelled prior to the start of play, members will have two options. They can (1) carry their season fees paid over to the following season, or (2) receive a refund of their season fees paid, minus any processing fees assessed as part of the SportsEngine payment process.

Once the season starts, about 10 percent of our annual operating budget is allocated for items such as league fees, coaching reimbursements, equipment purchases, etc. As such, after the season starts, the maximum refund is 90% of a player's season fees minus discounts (sibling discount, goalie discount, multi-team discount, etc). While there may be practices and other events earlier in August and later in March, for the purposes of this policy, the season will consist of August 30, 2020 to March 27, 2021 (30 total weeks; 29 weeks excluding the week of Dec 27).

If a portion of the season is cancelled due to governing body orders (Federal, State, Local, USA Hockey, PAHL or Penn State/Pegula), members will be entitled to a credit to their account. This credit can be carried over to the following season or refunded to their method of payment through SportsEngine. The credit will be calculated as their season fees * 0.90 * the percentage of weeks cancelled. The percentage of weeks cancelled is calculated as the number of full weeks cancelled between August 30, 2020 and March 27, 2021 out of 29. Note, the week of Dec 27 is not counted. As an example, if your season fees are \$1,500 and the season is cancelled on Feb 21, 2021, there would be 5 weeks lost; you would receive a credit of $\$1,500 * 0.90 * 5/29 = \232.75 .
