

# Eastview Girls Basketball Fall Tune Up Camp – 2021

These camps are designed to give all the high school players (grades 9-12) a great basketball workout for an hour and a half each weekend. These tune up camps were originally designed to help the Fall athletes who work all summer on their basketball skills and don't have an opportunity to do so once the Fall sports season begins. By participating in these workouts, each athlete will get one weekend day where they can get a serious basketball workout. There is no contact, it is all fundamental based. We work on ball handling, shooting, footwork, and making moves to the basket. Everything is designed to make them a more efficient basketball player.
