Welcome to the 2026 Hockey Manitoba Provincials!

This is a historic event across our province as communities and volunteers come together to provide this opportunity for the players. I would like to express my gratitude to Cargill Ltd. who has been a long-time sponsor of this event. And lastly, thank you to all the volunteers for making these provincial championships possible!

At some point over the weekend, make sure you thank the referees. We would not be able to play this wonderful game without these dedicated individuals. Please always be respectful and show them your appreciation for keeping you safe.

A reminder to the players, it is not the outcome of the games that define you but the heart you play with. Win or lose, the game of hockey teaches you much more about life from hard work, discipline, teamwork, and overcoming adversity. These are tools you will use throughout your entire life. I would encourage you to thank your coaches and managers for the countless hours they contribute to developing your hockey skills and ensuring you have a place to play the game you love. Most importantly, be sure to thank your parents. Your parents are supporting your passion, driving endless miles to rinks, and give countless hours for you to play this sport. Please ensure you show them the gratitude they deserve.

I hope you all enjoy this experience and make great memories that will last a lifetime. Good luck and have fun!

Boyd Canart
President, Hockey Manitoba

BETTER ATHLETE BETTER PLAYER

As another season comes near an end, we encourage players to take time away from the ice to improve as an athlete for the purpose of becoming a better hockey player down the road when it begins to matter.

Far too many players are specializing in 1-sport way too early which leads to many issues in the long term.

Although it may seem that spring-summer hockey will provide an advantage in the short-term for next season, there are far more long-term disadvantages!

Frequent injuries, lack of desire, lack of creativity, and robotic play are very prevalent when we watch players in our high performance programs. All stemming from simply playing too much hockey and not becoming an athlete.

Take time for the sun, for unorganized play, and rest. Enjoy multiple sports, age-appropriate training and skills this summer and we can assure that you will not be “falling behind”!
