PARKS & RECREATION

Beginning Fundamentals of Hockey

Learn to Play is tailored to teach the basics of hockey to our newest players. Our overall goal is to introduce each player to the game of hockey in a positive and fun learning environment for all.

The curriculum of this program will be formatted after recommendations from the USA Hockey Association, but under the direction and instruction of the Utah Jr. Grizzlies. The fundamentals focused on are power skating, agility, stick handling, passing, and shooting. This program prepares those players for recreational or competitive play.

Learn to play is a progressive program and participants are encouraged to attend each session; each session focusing on a different skill set and may not be repeated at any other time during the session.

2021/2022 Learn to Play (LTP) cost is \$75.00 per session for all players and is due at time of registration. Additionally, each player must register first with USA Hockey. The one time per season cost of USA Hockey membership is not included in the per session LTP cost.

The first session starts on October 2, 2021, at 12:45 pm. There are six lessons per session and there will be a total of three sessions during the 2021/2022 season. The dates for all three sessions are shown below.
