Sporting Springfield has a new training home!

We are ecstatic to announce that Phase 1 of Sporting Springfield's new home has been approved and construction will begin soon. This is a momentous occasion in the development of the sport in the greater Springfield area. A training environment that equals the professionalism and standards of Sporting Springfield is now here!

We have many people to thank for making this happen. First and foremost is Mr. Bobby Allison. Mr. Allison has seen to it that our goals and standards for a training home are going to be met which will allow players, parents, and coaches to realize their full potential. We also must thank Mr. Rob Phillips for his very generous allowance of use of his land and other resources. Mr. Phillips has plans to further develop the land around the training facility to incorporate retail, restaurant, and hotel amenities. Mr. Rob Haik and his architecture firm, H Design, are without a doubt the best in the business and have played an integral role in putting this all together from day one. There are many more people to thank for getting us to this point, and in due time we will, but we must include all players, parents, coaches, sponsors, volunteers, and any other person from the past and present that has contributed to the growth and development of the club to what it is today...you are awesome and have played a big role in this happening...THANK YOU!

The Sporting Springfield Training Home will be located next to Deer Lake Golf Course at the intersection of W. Chestnut Expressway (Business 44/Hwy 266) and N. Farm Road 107. Phase 1 will include 5-6 professionally manicured and maintained bermuda grass fields with lights. These fields will have the same grass that is used by Sporting KC. Phase 2 will include 3-4 turf fields, lights, and a large indoor training space. This state-of-the-art training complex will provide Sporting Springfield players access to high quality training pitches that will further enhance and develop the soccer players in SWMO area. This complex will be on par with high quality training facilities in KC, STL and other locations.

This is going to enhance the programming that Sporting already offers to our members, and will adequately represent your needs. Finally, we are going to have a training home that will reflect our players, parents, coaches, sponsors, and dreams that we can manage use of. We are extremely grateful, and beyond excited to be able to share this news with you. We will have more information to follow soon. Enjoy the picture and share with fellow soccer enthusiasts!

The future is bright for the current and future Sporting Springfield members!!
