Team Selection

Although parent requests will be looked at, the organization is not required to honor such requests such as coach preference, ride convenience, etc. The primary goal of the organization will be to divide the players into **evenly split teams**. Second, a number of players within the organization have requested the ability to move up an age level. These players may attend the advanced age level practice in order to see if they are prepared for the next level. It should be understood that the coaches at the age level, the director, and the soccer board will decide if the player stays up or moves back to the appropriate level. The primary characteristic we will be looking for is if the player is both mentally and physically ready to compete at an older age level. Players may be a good athlete, but their soccer skill and maturation will be the determining factors for a player's ability to move up. The soccer director shall have the final say with regards to player movement within the organization with regards to a change in level or a change in teams before or during the soccer season.

Team rosters will be finalized at 8pm on **Thursday August 15, 2019** at the Salmon River High School Cafeteria. All coaches or a representative of the coach **MUST** be in attendance!!!
