

Skokie Amateur Hockey Association Covid-19 Response Plan

The following email details the Skokie Amateur Hockey Association's Covid-19 protocols. These protocols include frequently asked questions and specific hockey rink requirements. Please do take the time to carefully read this email.

Safety Protocol Questions:

1. What if my child or a family member isn't feeling well or demonstrates symptoms associated with Covid-19?

If anyone in your household is feeling ill, exhibiting symptoms, is considering getting tested or is waiting for test results, no one from your family should be at the rink until there is clearance from your healthcare professional.

2. What if a family member or a person in close contact tests positive for Covid-19?

Please contact your coach and Ryan Mollet, Club President. All information shared will be kept confidential. Additionally, your child must remain home for 14 days. You are also encouraged to contact your healthcare provider for additional guidance.

A child may return to the ice provided he/she:

- a. has quarantined for 14 days, is feeling well, and there is no fever.
- b. has obtained two negative Covid-19 tests at least 24 hours apart.

3. What if a teammate tests positive for Covid-19?

If a teammate tests positive for Covid-19, his/her assigned team will be contacted. If the skater participated in a multiple team practice, each team attending will be notified. All information will be kept confidential. Follow-up and next steps will be communicated after all pertinent information is obtained.

4. If a player tests positive for Covid-19, when can she/he return to the ice?

The requirements for return to the ice are as follows:

- a. Must be at least 10 days after symptom onset.
- b. Must be fever free without any use of fever reducing medication for at least 24 hours.
- c. Must have a note from a healthcare professional that authorizes return to play.
