2019 Womens College Wrestling Programs

This quick access database was created to help parents and wrestlers make better educated decisions on where to go to college. Thank you to Luis Alba who created socialwrestlergirl.com which was the main webpage used to help create this database. This webpage is by far the best out for references pertaining to womens wrestling at the collegiate level.

Please remember there are several factors when selecting a college that is right for you or your child. Tuition, majors, associations and location. Thoroughly investigate every option when it comes to pricing the education that will be received. With proper financial aid, academic scholarships, grants, and discounts the more expensive schools may be more affordable while offering a better education. Once the final list of schools is decided we strongly encourage you to visit each one to make sure it is a good fit. In short, we encourage you to do your due diligence in finding out all that is to be offered before deciding. The association or organization each school wrestles in is also important if you or your athlete plan on competing. Each association has its respective level of competition. Most schools fall under the governing body of the WCWA. If you have any questions or wish to leave some feedback, please let us know at Indianagirlswrestling@gmail.com. We hope you use this database as a tool to assist you in gaining a scholarship and wish you the very best of luck in all your future endeavors. If you would like to get more information on Indiana Girls Wrestling please go to our website at indianagirlswrestling.com
