

GRAHA Advanced Mite & Squirt Skills Development Program with Coach Chris Campbell

PATTERSON ICE CENTER
Thursdays | 5:30pm - 6:30pm
Starting October 7, 2021

HOCKEY

The Advanced Mites & Squirt Skill Development program at GRAHA is an additional program to our standard 8U Mites and 10U Squirt B program. This 20-week session will focus on fundamental skill development, but will also introduce/reinforce full ice concepts such as offsides, positioning and line changes.

The main objective for this program is to provide additional skills development opportunities for our Squirt B and Advanced Mite skaters. Skaters will continue to develop in a faster paced and more competitive environment that will help them compete at the Squirt level.

Program Eligibility (2013-2011 Birth Years)

The program will be available to any **Squirt aged skater** or **second year Mite skater** moving up to Squirt the following season. Exceptions will be made for underage skaters but will require an evaluation and subsequent approval from the GRAHA Executive Board. This program will only be available to skaters registered in the GRAHA 8U Mite, GRAHA Squirt B House, or GRAHA Girls programs. No exceptions.

Cost \$450.00 per skater for this 20 week program
