City meeting (Brian/Tom/Mike attended)

- CR looking to do a facility for field sports, and charging \$80 per hour to CRAA for time,
- Blaine Soccer uses a facility Nov-May 3 hours on Sundays @ \$20,000
- They sent out a questionnaire basically asking for numbers of kids in program
- Questions not answered - Who would get priority for time as they are looking at  $\frac{1}{3}$  city,  $\frac{1}{3}$  Schools,  $\frac{1}{3}$  youth programs to use this facility and cover the costs
- Dome cost is high
- Wouldn't be able to keep cost low or offer scholarships if we had to fund this
- MG facility for example was paid by city and having trouble getting it in the green - parents are required to volunteer their time over the entire year to make it run.
