

SAFESPORT DIRECTIONS

If you are a new coach, you will take the 90 minute Safesport course that pops up. If you are a returning coach you cycle through a refresher course each year until you have seen all of them and then you are back to the 90 minute course.

If it shows Safesport is still outstanding in GotSport, and it shows that the course is completed, you need to complete a refresher. If it isn't auto populating for you then you can go to three bars in up right corner or Catalog in the center of screen. From there go to the Catalog.

You can pick the course you need to take from there and it will add it to your list of courses. Enroll in the next class. Order is as follows.

Safesport Trained (Year 1 as coach, year 5, etc.)

Refresher 1 (Year 2 and same pattern as above.)

Refresher 2 (Year 3 and same pattern as above.)

Refresher 3 (Year 4 and same pattern as above.)
